

Start a Group

Any registered AOM user age 13 or older can start a family or school group. To do this, click the create a free group link under the groups tab of the snapshot section.

This will walk you through the free group set-up process.

A screenshot of the 'Create a Free Group' form. It has a title 'Create a Free Group' with a right-pointing arrow. Below the title are three input fields: 'Group Name' (a long text box), 'Zip Code' (a shorter text box), and 'Group Type' (a dropdown menu with 'Select...' and a downward arrow). At the bottom of the form is a 'Save' button with a right-pointing arrow.

If you are looking to start a paid group, please contact karen@americaonthemove.org after setting up your free group. AOM requires a signed contract and payment before your free group will be upgraded. Details on costs and features can be found throughout this tutorial.
